HAIRDRESSING THAT MEN WILL LIKE. The hair is first waved, then drawn back simply over the ears and gathered into a flat knot in the middle of the head. To be more correct, it is only the right side that is drawn into this fashion, while the left side hangs free. After the right side has been smoothed into place and the back knot flattened out so that it will present no bulge the left side is loosely brushed back over the middle and to the right side, where its ends are turned under and tucked away by invisible pins.

HAT ODDITIES. Milliners are using butterfly bows instead of the square ones.

Expensive flowered ribbons in antique designs and with picot edges are used on hats in place of flowers.

Moire ribbons brocaded in velvet have replaced plain moire.

Bands of these ribbons sometimes form the only trimming upon the small toques of fur and velvet.

Fantasy trimmings consist of bands made of different-colored china beads.

A fringe formed from loops of these beads outline the little caplike toques.

Gold brocaded passementeries and the use of appliques of vivid embroidery in silk, wool, brocade or gold and silver, laid upon fur, are others of the striking novelties.
